inspiration for your patio
and care for your furniture.

90 years with outstanding outdoor spaces.

We may not be city people, but we understand the value of thinking big while acting locally, with integrity and honesty. We are who we are mainly due to the fact that we have been in the business for 90 years. Bror Carlsson was a chapman who started the company 1928 when he sold brushes, home woven baskets and trays from the back of his truck to the farms in the area around Össjö, in Halland. When his son Rolf joined the company, they took to selling directly to other companies, and in 1975 the company turned into an expansive wholesale operation.

And this is where it comes from, the feeling for service and hard work, which are necessary incentives for a solid growth. The company culture is characterized by being born and raised in the countryside where people have carried out carpentry and created handcraft for their own undemanding benefits. It has created an entrepreneurial spirit that knows the value of being able to produce on a big scale, manage import, and develop the business. It's a spirit that particularly honours the personal relationships. For us, a handshake has the same value as a signature on paper. And we care for the relationship with the customer just as much as we do with the supplier and the retailer.

It feels like home

The trend speaks for itself: home is really where the heart is, a place where we enjoy spending quality time with family and friends. So it is not surprising that so many people like to create a warm and cozy feeling also outside the house. And this is where synthetic wicker fits so well into the picture. With its attractive design and natural colour scheme, it can turn an entire patio into an inviting oasis during the hot summer months. Our synthetic wicker furniture is made in a way similar to natural rattan. The wicker is woven around a solid weather resistant

frame, a method made by hand and with great skills. In time for this summer this season, we take pride in being able to offer a wide variety of furniture with different types of weaving and size of fibres, combined with strong and durable fabrics, as for example Textilene. We only use high quality materials, from the inside and out, therefore our synthetic wicker furniture suits all kinds of weather conditions. As you can see, our wide assortment of armchairs, tables, sofas and loungers, provides endless possibilities. Now, it is up to you to add your personal touch to the summer.

Kenton & Kastos

KENTON

Kenton – a tasteful pairing of resin wicker and teak which works brilliantly in a conservatory. The dining chair is beautifully crafted from loosely woven resin wicker. It comes complete with a seat cushion and a comfortable backrest. The 3-seater sofa has two thicker seat cushions and backrests. All the cushions are covered in grey Olefin fabric. The dining chair is an excellent match for several of our teak dining tables, and the sofa and our teak coffee table are a match made in heaven.

Bellaire & Eios

BELLAIRE

Bellaire – dining chairs and lounge chairs with an inviting and comfortable organic shape. An elegant combination of premium resin wicker with a teak frame. Olefin fabric cushions add extra comfort, with a seat cushion and backrest for the lounge chair, and a seat cushion for the dining chair. A smaller table in the same combination of materials is available for the lounge chair. The dining chairs are an excellent match for one of our teak dining tables.

Ninja & Elati

NINJA

Ninja, one of our series that have infinite combinations, is available in rustic, grey, black and beige. The series contains everything you need to construct a comfortable seating group or a dining set to suit your own style. The dining tables are available in different sizes and designs which together with comfortable chairs give an opportunity to create an inviting dining area. The Ninja side table provide you with practical storage, and a couple of sets of pots filled with plants will bring nature closer. Take a seat in the Ninja lounge and relax.

Ninja & Talance

WESTON

The Weston series In a contemporary design and beautiful light beige wicker, cushions of high quality in beige olefin fabric with slightly rough structure, legs in lacquered aluminum in matching beige shade, it provides a sense of quality. Weston contains five buildable modules and a coffee table. Which combination you choose, give Weston a generous impression with room for many. From Ninja series in the same wicker can complement your furniture with a dining group.

AJACCIO

Ajaccio combines aluminum and wicker, with round shaped legs and soft curves. The cushions are beautifully structured in a olefin fabric. Overall a very modern design with a slight retro feeling. Ajaccio is buildable, so you can easily create your own combination. The generous table has dimensions of 105 x 105 cm, white with a tempered glass top. Cushions with high density foam.

Summer all year round

We realized a long time ago that summer is just too good to be limited to the months of June, July and August. With our genuine rattan furniture and a conservatory, you can in fact enjoy that special summer feeling all year round. The manufacturing process of rattan furniture is built on pure craftsmanship. The long rattan willows are woven around a frame of thicker rattan, resulting in a vibrant and natural furniture that brings about a warm, cozy feel

to your veranda or living room. The open weaving gives a light and airy impression and fits almost anywhere. Though, furniture made of natural rattan should be kept away from rain and moisture. For this reason they are better placed on a conservatory. If you feel like decorating your room with furniture of different materials, it can be a good idea to combine groups in rattan with some of our teak tables – just let your creativity loose!

BONETE

All of our furniture made of rattan are made by hand with great skill. Bonete armchair is no exception. It goes beautiful with all of our teak tables as well as our rattan table Kubor.

Make the most of summertime

It can not be said enough: Summer in our latitudes can be as versatile as the characters in a theatre play. A beautiful sunny day may change into a grey mass of clouds and rain, before giving way to more sun and blue sky – all within the blink of an eye. However, with some modern aluminum furniture on the patio, you can just as easy move the cushions back out in the sun – as soon as it comes in sight. This flexibility is probably a good reason why our aluminum furniture maintain its popularity year after year. Aluminum furniture is maintenance free,

easy to move around and comfortable to sit in – and with a design that keeps improving for each season. This year we are introducing new colours and combinations of aluminum with textile and other materials. For instance, have a look at the new group Belfort, which can be shaped exactly as you wish. In order to be sure that our furniture will turn out the way we want, we test and adjust it numerous times before it is approved for production. This extra consideration is for your benefit.

STETTLE

Mum, dad, the kids, the dog, the cat, granny and grandpa... there's room for everyone in Stettler, our most generous aluminium sofa. This amazing sofa set is wide and deep enough to let you all relax comfortably together. Besides a 2-seat end and a comfortable corner section, the Stettler range includes a large coffee table and an extra large rectangular 120 x 78 cm foot stool that can also be used as a divan. Comes in matte black lacquered aluminium with grey Olefin fabric.

Not a cloud on the horizon with Weldon All Weather Cushions. Worried about leaving your precious cushions out in the rain? Don't be! Weldon's unique All Weather Cushion dries fast and is resistant to fungus. Now you may enjoy every single day out in the open, regardless of moody weather changes. Your cushions will be fine! By putting the cushions in an upright position between times of usage, they will absorb less water and dry even faster. We recommend supplementing with a figure sewn furniture protection. It will keep the cushions clean and make them resist the sun longer.

The aluminum table Weldon is excellent together with Leone stacking chair.

WELDON

Our largest series in aluminium, Leone, has a new family member – Weldon. A new series of aluminium furniture in a matte finish. The modular parts come with all-weather cushions – perfect for the Nordic climate. Some of the Leone items are now available in a matte finish, perfect to match with Weldon.

In close contact with nature

With summer, one can never know for sure. Some years we can enjoy its presence from April to September; other years it settles for a brief guest appearance. But one thing is for certain: A dinner party out in the open is always beyond comparison. So be prepared for a great time, and make sure you have the right furniture to serve the occasion. In other words, go for teak wood.

Teak is an amazing material; tough and robust enough to stand up to the weather elements, year after year. And with enough endurance to handle almost any amount of pressure, even in slender dimensions. But to achieve these superior features, the teak wood has to undergo proper treatment right

from the start. Then, the planks need to gain the proper moisture content before being shipped off to become furniture. Since the manufacturing process for teak wood calls for high precision tools, we use machines to obtain the desired quality. This particular quality is found in detail in, for example, the Cecilia set. Like many of our teak furniture, it has a white-pigmented surface with a charming, rustic feel to it. As shown in several places in this catalogue, teak also fits well in with furniture made from other materials, such as synthetic rattan. It's important for us to know the origin of the teak wood and to protect the wild specimen. Therefore we choose to work exclusively with planted teak from plantations.

ELATI

Elati - a first-class series with frame in teak and seat and back in textilene with fine details. Comfortable cushions in Olefin fabric with foam filling. Endpiece right + left + corner unit sales as a set, middle section and tables sold separately.

Drama

Hard surfaces for soft moments

Not even Christmas Eve can match the expectations we have of an approaching summer. It's what we have longed for, when everything moves at a slower pace and we can take our time to sunbathe by the sea or just ease off in the undisturbed lushness of our gardens. Lazy days followed by pleasant nights with barbecues and parties in the company of good friends. And in between social gatherings, a bit of quiet contemplation away from everything, in our favourite spot. But believe us, those moments will

reach new dimensions, when leaning back in outdoor furniture made of acacia wood. Acacia is both hard and durable, well suited for furniture. The models in our hardwood range span from the classic Dakota to the modern piece Everton. Arizona is another series consisting of several tables that makes a perfect complement with one of our many wicker armchairs. Our hardwood range includes antique coloured and splendidly oiled natural acacia.

ARIZONA

Arizona - a series of painted acacia with a natural rustic feel. The tables can be combined with other types of furniture. Fittings and screws in stainless steel. This series should be protected from damp weather, preferably under roof.

Solid classics for all types of weather

Pine furniture has a special place in our hearts. It may be part fashion, considering how well it fits into our Nordic environment, and part tradition, because solid pine furniture seems to wake up childhood memories of long carefree summer days, with clear blue skies and ever lasting sunshine. But beyond this air of nostalgia, just how good an outdoor material is pine tree nowadays? As good as ever, we dare to say,

as long as it is quality timber, treated in such a way that it withstands the weather conditions. Our pine furniture is treated no less than three times. Painted and thereafter laquered twice. The result is outstanding durability and colour fastness. In addition, we offer a warm brown impregnation which meets both the environmental standards and provides the furniture with a strong and beautiful finish.

BIRKA

Rustic furniture in brown impregnated wood. The impregnation protects against decay and give long life to the furniture. Two 190 cm benches can be placed under the table.

NARDI
YOUR OUTDOOR LIVING

www.nardioutdoor.com

Effortless sweet days in the sun

Amazing summer days are filled with generosity. They are there to please you from morning to night – without asking anything in return. Just kick off your shoes, smile back at the sun, and enjoy the luxury of being totally casual and carefree. If you prefer maintenance free furniture, resin might be exactly what you are looking for. Light and flexible, easy to move, and undemanding as the summer itself. Furthermore, resin is easy to shape into different designs and styles – in our wide range you will find everything from simple, traditional camping

set to elegant and exclusive designer furniture. The difference between high- and low class resin furniture, besides seating comfort, lies in the material itself. Take any item from our Italian supplier Nardi, for example: Chic and stylish furniture made of superior quality resin. Several years out in the baking sun will not have the slightest effect on the colour. These features are particularly evident in the group Darsena. We recommend to take a look at this piece, and decide for yourself.

NARDI
YOUR OUTDOOR LIVING

Set for success

Chilled refreshments on the sun-drenched café veranda, a warm breeze ruffling your hair, laughter and small talks from the guests at the next table – an outdoor restaurant is without a doubt more than the sum of its parts. When the overall experience of an establishment – the atmosphere, the food and the interior design – feels right, your visitors will feel happy and at ease. Naturally, the furniture plays an important role, both for practical and esthetical reasons. By choosing a particular style of furniture,

you can boost the restaurant's image and target a specific audience. Remember that café furniture needs strength and durability to cope with daily use in a public space. Brafab Café furniture have all of these features, and more. Our catalogue contains chairs for practically every taste, together with legs and table tops to be combined in a number of ways. You may want to take a closer look at the laminate top an up and coming summer classic!

It's time for a time-out

The sun is shining from a beautiful clear blue sky? Fine. Then you have the perfect opportunity to sit back in one of our comfortable lounge chairs and watch the world go by. Switch off your lap top and your phone. Dedicate this day to yourself, and to the luxury of a bit of relaxation without obligations. Whether you need an extra bed for the camping tent

or just something comfortable for the beach, we have the model that you are looking for. Here you will find a wide range of leisure furniture to help you reach the perfect stage of relaxation. The classic hammock has a special place in many hearts and will forever be associated with happy summerdays. Pick out your favorite, then press the standby button and enjoy.

A place in the sun - When ever you need

Even the blissful sunshine can at times become too much of a good thing. Then it is time to escape into the cool shadow for a bit, to rest your mind and body. With our parasols and marquees, you can have the best of two worlds. Now you can actually create your own little sanctuary, protected from the scorching bright light, without having to move indoors. Choose from our wide range of parasols: Here you find everything from small, simple models designed

for the balcony – to our giant canopys, which measures four times four meters. Are you looking for a wooden or aluminum frame? Check how it matches your choice of outdoor furniture. You can pick from a variety of stands of different materials and colours. Of course we also have marquees and exclusive pavilions, which both provide a pleasant setting at the party, as well as protection from wind and mosquitoes during late evenings.

MARSALA

Marsala - a pergola in painted aluminum that require a minimum of maintenance! Walls in polyester zippered for seating protected from the wind.

Steel Galvanized

Cleaning and Maintenance

How to care for your outdoor furniture.

SYNTHETIC WICKER/PLASTIC/ TEXTILENE

Our synthetic materials are best cleaned with a damp cloth and a mild detergent. Do not clean your furniture with a pressure washer. To protect the surface, never place hot objects directly on the tabletop. Always use beverage coasters for glasses and glass objects, as they can become extremely hot in strong sunlight.

LAMINATE

For best result, use a damp cloth and a mild detergent, such as a washing-up liquid, or an all-purpose detergent like Brafabs Multi-surface cleaner. After cleaning, wipe the furniture with a dry cloth. Never place hot objects directly on the surface, always use placemats for protection.

NONWOOD

Clean with a damp cloth and a mild detergent. Don't use a pressure washer. Make sure not to put any hot objects directly on the material, always use placemats to protect the surface. Glasses and glass objects may become extremely hot in strong sunlight, therefore always place beverage coasters underneath them. Depending on the temperature, the table top can move some and cause it to bulge slightly.

ACACIA

All our acacia-wood comes from certified plantations in Vietnam. In order to preserve its beautiful surface, make sure to treat the furniture with a Brafab oil. On all new furniture, allow the oil to soak in completely. Repeat this several times, until as much oil as

possible is absorbed by the wood. Excess oil is easily wiped off. We recommend to carry out this treatment on a regular basis, especially in the spring before moving furnitures outdoors.

PAINTED/STAINED ACACIA

Our painted Acacia furniture is best cleaned with a soft cloth and a mild detergent. After cleaning, wipe the surface with a dry cloth. Always protect your furniture from rain, preferably with a well-ventilated furniture cover. If the furniture is exposed to rain, make sure to wipe them dry. In case of damage to the varnish, grind lightly with a fine sandpaper and remove any dirt left behind. Before painting the damaged area, try first on a small spot to make sure you have the right colour. Consult a paint store for advice on the correct product to use.

TEAK

All our teak-wood comes from certified plantations in Indonesia. Severely soiled teak is best cleaned with Wood Cleaner. Light dirt can be washed off with water and mild detergent. Wet the teak for a while before cleaning, so that the surface becomes soft. If the wood grain stands up a bit after cleaning, lightly sand down the surface with fine sandpaper. Let the furniture dry for at least one day and then proceed with after-treatment using Brafabs range of maintenance products. Natural coloured blasted Teak teak wood is treated with a waterproofing wood treatment and normally requires only a cleaning with mild detergent. The furniture can be treated with Brafab teakoil. White pigmented Teak wood is best cleaned with warm water, a mild detergent and a soft cloth. Do not use any

oils or such, as long as you want to keep the white surface. Greyed teak wood is best cleaned with warm water, a mild detergent and a soft cloth. Use Brafabs maintenance products to keep the dirt- and water repellent surface.

PINE

All of our pine furniture is made from FSC-certified pine. When the finish starts to look dull and water no longer bead on the surface it is time to give your pine furniture a treatment. First, clean the furniture thoroughly and let them dry for at least one day. Finally treat the furniture with a Brafab oil.

WOOD FURNITURE IN GENERAL

Generally the screws need to tighten up from time to time. It is a good rule to do this before you move the furniture into storage, and again before you take them out for the season.

STORAGE – ALL FURNITURE IN GENERAL

Keep the furniture well protected from wind and weather, preferably in a cool, dry and well ventilated storage. Make sure the furniture is completely dry before they are stored away. Most importantly, use furniture covers which allows good air ventilation.

FURNITURE COVERS

Our range of furniture protection contains covers for individual pieces of furniture and parasols, and covers for large groups.

**7623-7 Touch up
For pine**

Colour and comfort for body and mind

In some cases, one and one equals three. Just like when the combination of two beautiful things leads to something extraordinary. This is particularly true when it comes to our cushions and chairs. Each works on their own, but together they will lay the foundation for a highly pleasant and comfortable summer. But our cushions do more than just bring comfort – they can add a full colour palette to your entire veranda. Let your imagination rule, and here is how you get the best result: First select the model

of cushion, then choose colour and pattern from our wide assortment. Some of the cushions have different patterns on the front and back. You will find a variety of fabrics and designs, including heavy Panama Cotton. However, our finest material is probably Dralon, which provides maximum comfort and colour fastness. To keep the textile in top condition, we recommend that you store the cushions flat and dry in one of our practical and stylish cushion storage boxes.

DUBAI

Dubai cushion is available in three designs: position chair cushion, seat cushion and stacking chair cushion. All have the same decorative cross-stitching.
