

In the 2019 collection, we have been inspired by nature and played with colour and form. Take your personal style with you outdoors and make the most of your time.

Outstanding outdoor spaces for outdoor lovers.

Crafted by Brafab in Sweden.

BEHIND THE SCENES

Marie Bergqvist Product Manager, Brafab

What is Brafab's 2019 product range inspired by?

"Outdoor homing', i.e. outdoor surroundings that reflect the trends set by the indoor environment. A mix of materials and furniture that is easy to move and rearrange. They have to be practical, close to nature and have soft lines. They draw inspiration from the Scandinavian pallet, with features in warmer tones."

Which of this year's new arrivals must not be missed? "Gonesse. So stylish, comfortable and flexible."

What's a good tip before choosing new furniture? "Work on the whole setting and coordinate more – there are many materials and new functions. And don't forget to create a comfortable place 'just for being'."

Dick Björk Swedish furniture designer

How would you describe yourself as a designer?
"My relationship with furniture demands each piece to be so well designed and well-made that it becomes part of your life. You should be able to grow together and ideally pass them on to the next generation. This way they acquire their own history, which is both exciting and eco-friendly."

What was your thinking behind the design of Brafab's modern Vevi and Gotland series?

"When I designed Vevi, my aim was to create an elegant, modern teak series with a high degree of seating comfort. I used the long ribs to provide a sense of elegance that was also restful on the eye."

"Through my involving steel, Gotland took on smaller dimensions and is perceived as being more delicate than it really is. Good stackability saves space for the user, and the generously dimensioned dining table with its insertable leaf provides room for many."

Why do you think Brafab furniture is a good choice? "I can promise that my furniture is enduring in both quality and design. I wanted the furniture to have a strong, timeless personality that is happily inherited. You always get your money's worth with furniture from Brafab."

Vevi

Hugo de Ruiter Dutch furniture designer

How would you describe yourself as a designer?
"My designs are dynamic in both form and function. They always have components that make the furniture easy to move or adjust to make sure they suit the user and every day living. This could just as easily be a private occasion or a social gathering, or a quiet time on the sofa to enjoy the summer sunshine."

How would you describe your latest Brafab series – Gonesse and Reims?

"I did not begin with form in the case of Gonesse. Instead, I studied various ways of socialising to create the concept 'form follows life'. The result was Gonesse, a geometric 3D furniture puzzle that I enjoyed being able to solve in a creative, comfortable and beautiful way."

"When designing Reims, I worked with the feeling that many people long for great seating comfort combined with clean lines and rectangular shapes. If you have a home with modern architecture, the furniture on the patio must also harmonize with it. Reims is an excellent example of how clean, stylish lines can be combined with great seating comfort."

Why do you think Brafab furniture is a good choice? "Brafab is a renowned quality brand that takes great responsibility for its furniture, customers, the environment and society in general. Life is too short to choose furniture that you regret after just one season. Maybe Brafab is not the cheapest, but when you choose designer furniture from Brafab it will be your friend for life."

NATURAL

Fully or partially made of natural materials.

RESISTANT

High resistance surface.

This parasol demands the weight...

7 good reasons to choose outdoor furniture from Brafab

1. Customized for you

All of our furniture is carefully thought out and can be adapted to your needs. Take note of the seat height, back angle and choice of materials next time you look at our furniture. You'll notice how different it is from many other products on the market. What's more, it's equally resistant to the climate in Scandinavia as it is down south in the Mediterranean.

2. Elegant solutions

All of our furniture is colour coordinated. This means you can furnish your entire patio with matching furniture. We also have specially tailored furniture covers and maintenance products ideally suited to your particular selection.

3. Avant-garde designs

Want to be a trendsetter? Then you should take a look at our product range. As the market leader, we set trends and drive the industry forward. We make sure you don't buy a product you risk getting bored with after just one season.

4. Sturdy frames

Almost all of our frames are made of aluminium – a material with many advantages compared to e.g. steel, both when it comes to corrosion protection and allowing light, easy-to-move furniture. There's a big difference in the strength of a product with a stout frame compared to a thin one.

5. Stronger synthetic rattan

A lot of the synthetic rattan products available today contain a high percentage of recycled plastic, which is both weaker and has lower UV resistance. We seek to use the stronger "virgin" synthetic rattan in all of our furniture.

6. Fabric

All of our fabrics have consistently high UV resistance and withstand the sun's rays well. They're also made from materials that are durable and easy to clean.

7. Long life

Durability is important to us! Because we want your favourite furniture to last a long time, we're meticulous in our choice of materials. Should anything wear out, we keep a large stock of spare parts and coverings.

Synthetic rattan

Natural-looking wickerwork for all weathers

The trend makes it plain for all to see – the home is an increasingly important place. Since many of us want to create a comfortable, welcoming home environment outdoors too, it's no surprise that synthetic rattan furniture is growing ever more popular. Thanks to its design and natural-looking range of colours, our furniture easily transforms your patio into a comfortable, inviting oasis during the hot summer months. As with natural rattan, our synthetic rattan furniture is made using artisanal methods that demand great professional skill. The wicker is woven

by hand around a stable, weather-resistant frame. These days, we're also able to make furniture with varied wickerwork and different strand thicknesses combined with durable textiles of different kinds. By using high quality material from the inside out, we offer synthetic rattan furniture that is truly able to stay outdoors in any weather. Our wide range of armchairs, tables, three-piece suites and loungers create many possibilities just waiting for you to begin arranging.

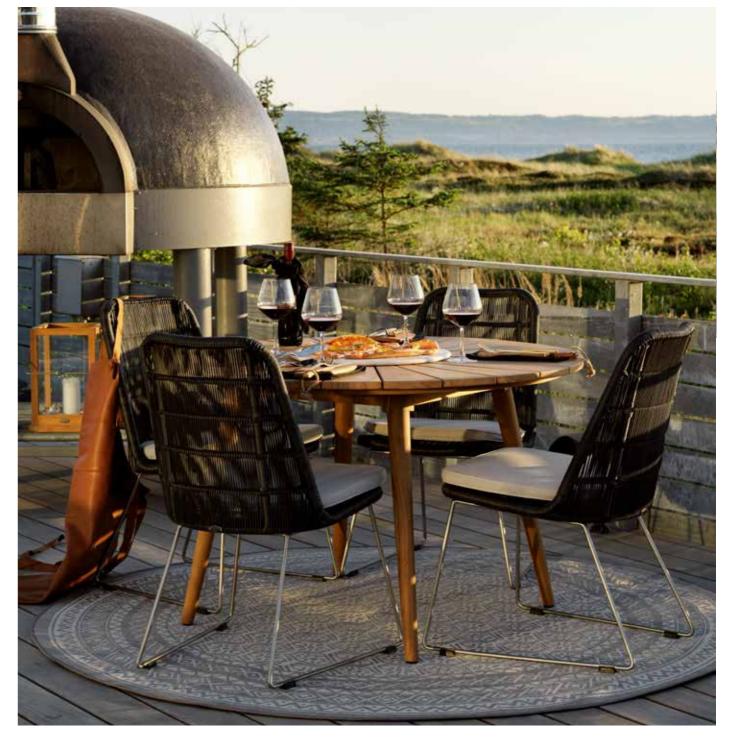

DIGHTON

A modern lounge range in black synthetic rattan with straight lines and stainless leg frames. 2.5-seater sofa, lounge armchair and dining chair, all in high quality with generous seating comfort despite the modest dimensions.

MARGATE

A tasteful dining chair with excellent seating comfort, in which unique woven black synthetic rattan is combined with stainless leg frames. A chair that matches most of our attractive teak tables. The chair is supplied with a matching seat cushion in light grey fabric.

SUNSIDE

A modern take on a classic armchair. Twisted synthetic rattan with olefin fabric cushions. Goes well with any of the tables in our Pamir range.

Kenton – a tasteful pairing of resin wicker and teak which works brilliantly in a conservatory. The dining chair is beautifully crafted from loosely woven resin wicker. It comes complete with a seat cushion and a comfortable backrest. The 3-seater sofa has two thicker seat cushions and backrests. All the cushions are covered in grey Olefin fabric. The dining chair is an excellent match for several of our teak dining tables, and the sofa and our teak coffee table are a match made in heaven.

Rattan

Summer furniture for every season

We realized years ago that the summer is far too good to be limited to June, July and August. So if you have a conservatory, we make furniture in genuine rattan so you can delight in that special summer feeling all year round. Making rattan furniture is pure handicraft. The long wicker strands are woven around a coarser rattan frame. The result is living, natural furniture that gives your conservatory, or why not your living room, a snug, cosy feel. The open

weave gives the furniture a light, airy expression that suits many different contexts and furnishing styles. Because natural rattan furniture should not get damp, it's best suited for conservatories. If you'd like to mix materials in your decor, rattan furniture will go well with many of our teak tables. Why not get daring and mix things to create your own personal style...

SONORA

A retro-inspired range in genuine hand-woven rattan. Cognac brown rattan in gentle, clean lines and generous beige cushions produce a design that is both classic and elegant. Available as a three-seater sofa and armchair with matching coffee table, but can also be combined with one of our teak tables. Relax in the spacious recliner and enjoy! Ideal for conservatories.

Aluminium

Go ahead and enjoy the summer

Summer is a fickle friend. An inviting, clear blue sky can quickly change to a chilly downpour only to suddenly bring sunshine and heat again. With such abrupt changes in mind, we want to help you make the best of those sunny moments. Our maintenance-free aluminium furniture means you're soon ready with the cushions to enjoy the patio whenever the sun shows up. So it's no wonder our aluminium

furniture remains so popular year after year. Because they're practically maintenance free, easy to move around and comfortable to sit in, we like to present new designs in aluminium every season. To make sure our furniture always fulfils form and function, we sit in them and tweak them innumerable times before they enter production. Care and convenience as part of the bargain.

GONESSE

Gonesse is a modern, modular lounge group that consists of just three parts, a back section with a corner solution and two identical free-standing two-seater sections. The backrest has an open design. Gonesse can be used as a traditional corner group with the two loose armrest cushions as end pieces or neck rest. The set can also be converted into a sun lounger for two. Designed by Hugo De Ruiter.

REIMS

New!

A spacious, modern, lounge sofa with few parts, created by the designer Hugo De Ruiter. Seat, back and armrest are 20 cm thick with a gently rounded outline. Embroidered, loose back cushions offer both excellent seating comfort and a timeless feel against the straight, open backrest. The range consists of two-seater right and left facing sofa, both with an extra back cushion for a smart corner solution.

Not a cloud on the horizon with Weldon All Weather Cushions. Worried about leaving your precious cushions out in the rain? Don't be! Weldon's unique All Weather Cushion dries fast and is resistant to fungus. Now you may enjoy every single day out in the open, regardless of moody weather changes. Your cushions will be fine! By putting the cushions in an upright position between times of usage, they will absorb less water and dry even faster. We recommend supplementing with a figure sewn furniture protection. It will keep the cushions clean and make them resist the sun longer.

WELDON

Weldon is a series in appealing design and matte finish. The structural parts have all-weather pillows - perfect for Nordic climate. Weldon fits well with our Leone series.

STETTLER

Mum, dad, the kids, the dog, the cat, granny and grandpa...there's room for everyone in Stettler, our most generous aluminium sofa. This amazing sofa set is wide and deep enough to let you all relax comfortably together. Besides a 2-seat end and a comfortable corner section, the Stettler range includes a large coffee table and an extra large rectangular 120 \times 78cm foot stool that can also be used as a divan. Comes in matte black lacquered aluminium with grey Olefin fabric.

WHISTLER

Whistler is a stylish, modular range with a special combination of matte varnished aluminium and teak, making it different from other aluminium ranges. What is also special is that the two seat sections have a smaller side table with teak slats. The side table can also be used as an extra seat. There is also a table for Whistler, measuring 90x 90cm, with teak slats and a corner piece.

CARLETON

Carleton is a smart, modular range with a lean, modern design with beautifully woven rope and gently curved features. The range creates a generous impression and has an accompanying coffee table with a detachable teak surface panel.

COLEVILLE

Coleville is set apart by its soft contours in a mix of classic and contemporary lines. It's available as a 3 seater sofa and armchair. All made of matte lacquered black aluminium tubing with grey Olefin fabric cushions. Grandby coffee table is an excellent match.

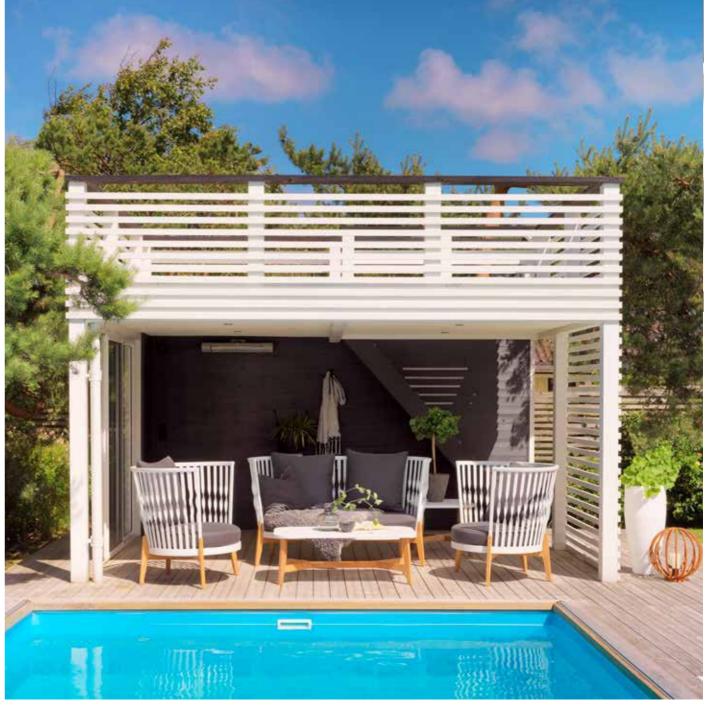

With cushion

FERNIE

Fernie is the perfect option when you want to sit in pleasant seclusion without feeling shut in. It's an elegant sofa set in a tasteful design. The seat sections have splendid twisted lacquered aluminum slats and a teak frame. The table has a top made of lacquered aluminum with decorative recessed grooves and teak frames to match the sofa and armchairs. Thickly padded cushions and soft back rests in grey Olefin fabric.

8201-5-79 Fernie armchair With cushion

8202-5-79 Fernie 2-seater sofa With cushion

OLIVET

Olivet is a series inspired by the 60s. Matt coated in white with details in teak wood and high quality comfort thanks to curved ridges and contoured olefin cushions. Choose between the 3-seat or 2-seat sofa, armchair and coffee table in three sizes, all with a magazine rack. Complete with a dining group with a round or rectangular table and dining chair Olivet, which is stackable.

WAYBURN

Modern series in aluminum with a woody look. Easy care furniture.

HINTON

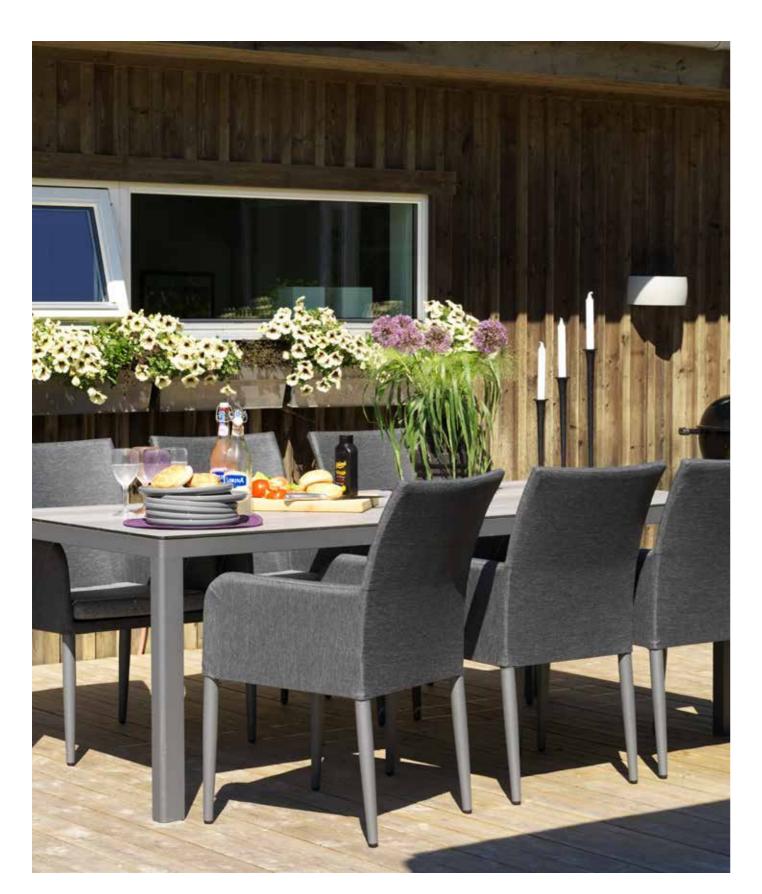

Hinton is a stylish series containing a dining table, stacking chair and a practical bench. The combination of stainless steel frames, the back and seat fabrics, and teak in armrests and table tops provide a very weatherproof furniture.

CALLANDER

Modern textilene group with hint of retro. The range consists of a 2.5-seater sofa, armchair, chair and an attractive variety of table with a hard-wearing HPL surface with e.g. a black granite pattern.

HILLMOND

It's time for the ultimate, epic party! At 310 cm, Hillmond is our longest extending table with room for at least 12 people. The underframe is in lacquered aluminium and the top can be either transverse aluminium ribs with an embossed wooden pattern or one of our wood-patterned laminate tops. Hillmond is also available in a smaller 160-220 cm version, with room for 8-10 people.

Teak Close to nature

You never know with summer. Sometimes it's top of the bill from April to September, other times just a cameo appearance now and then. But one thing's for sure, a meal always tastes better alfresco. So when summer comes, make sure you're ready for a party beyond the usual, and maybe with teak furniture... Teak is fantastic furniture material. It can stay outdoors year after year and is so strong that even with the slenderest of measurements it can handle heavy loads. For the wood to retain these excellent qualities, it must be handled properly right from the start. Once the trees reach the right

age for felling, they are sworn into planks and dried to the precise moisture content. Not before then do they reach our furniture manufacturing. Because teak is hard, it demands extremely high precision processing and so we use machining to achieve the best results. Naturally, we're picky about the wood's origin and because we care greatly about the wild population, we only use cultivated teak from plantations. We comply with the stringent provisions of the EU Timber Regulation. Teak is a material that goes very well together with furniture in other materials, e.g. synthetic rattan.

VEVI

Elegant, modern design at its best. Vevi includes a generously proportioned teak dining table with room for 6-8 people and comfortable chairs. The range also includes a sun lounger, side table, bench, lounge armchairs and an attractive low table. Designed by Dick Björk.

Hardwood Hard surface for soft shapes

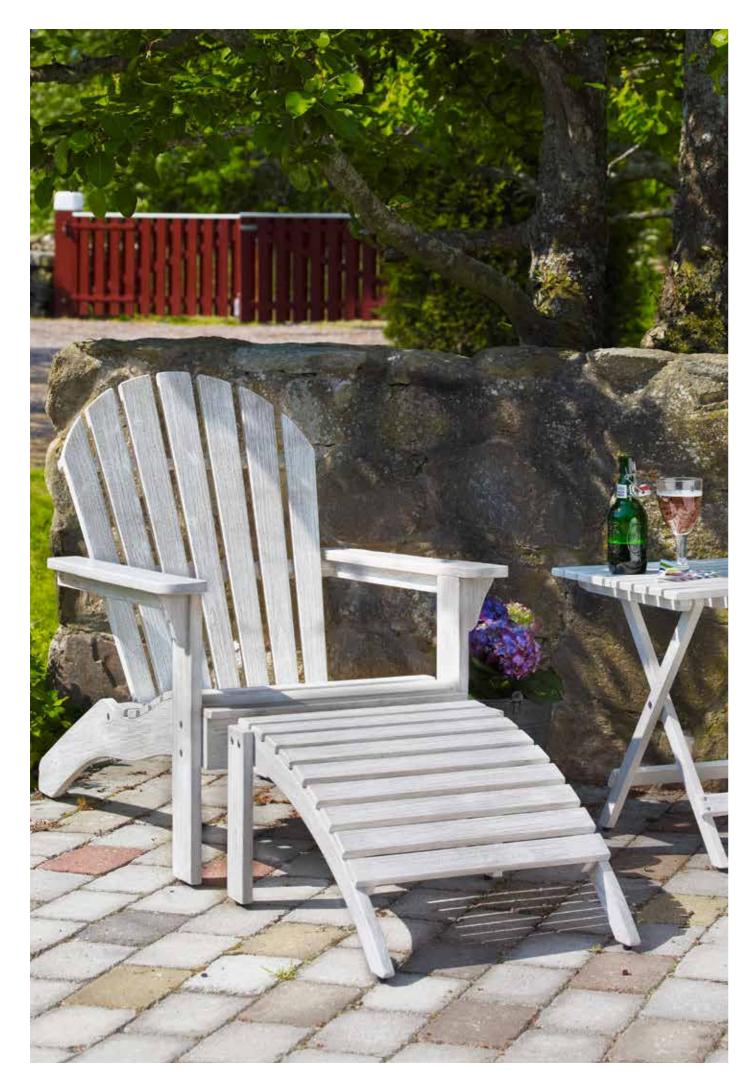

There's probably nothing that gives rise to such great expectations as the approaching summer.

Dreams of an unbroken stretch of sunny days at the beach followed by warm barbecue evenings and that party spirit after a moment of quiet philosophical reflection. No matter where you are, that summer feeling is never better than when you're sitting comfortably relaxed in your acacia outdoor furniture. Acacia is a tough, durable so-called

hardwood that is ideal for making furniture. When we purchase hardwood, we follow the stringent provisions of the EU Timber Regulation.

Our range of hardwoods not only includes antique finishes but also beautifully oiled, natural acacia.

Acacia furniture is a popular choice among people furnishing their conservatories. Because the furniture is sensitive to damp, it must be maintained regularly if left in the open air.

CHAPLIN

Chaplin – sun lounger in painted acacia. The matching Chaplin side table 50×50 cm and Chaplin cushion are available. Stainless steel fittings and screws.

Pine All-weather classics

Pine furniture has always enjoyed a special place in our Nordic hearts. Perhaps this is due to traditions in the North, where solid pine furniture brings back childhood memories from carefree summer days. Today, the more likely question is how good is pine as a material for outdoor furniture? Couldn't be better if you ask us, as long as you select quality wood treated in the right way to stand up to the wind and weather.

GAMMELDAGS

Plastic

A summer free from inconvenience

Sunny summer days are generous to a T. They go on giving from dawn to dusk, unselfishly sharing their warmth and asking for nothing in return. Our plastic furniture is a great place to enjoy such summer days. They allow you to enjoy and smile your way through weeks by the sea or the pool without a hint of inconvenience. This ideal material is not only completely maintenance free but also light, which makes furniture easy to move around. The material's moulda-

bility has led to a wide product range that spans everything from simple, traditional camping sets to elegant, exclusive designer furniture. Apart from seating comfort, the difference between good and bad plastic furniture is the quality of the plastic itself. Take our Italian supplier Nardi for example, whose plastic is of fantastic quality (also look for Nardi in the Café chapter). The colour will not fade at all, even after many years in the sun.

155 to 15

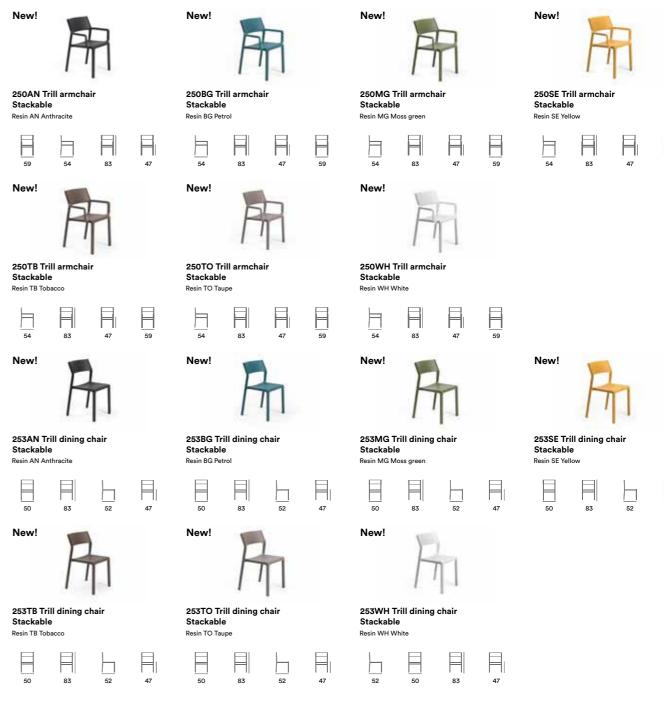

TRILL

Trill is a new collection of chairs from Italian Nardi. The chairs have a harmonious sculptural look and striking simple silhouette with timeless design. Available in two variants, with or without armrests, and both are stackable. Comes in several new colors that are easy to combine. Matt finish and nice details. Durable construction and material and fits well in both the public and home environment.

Café & Restaurant Set for success

Imagine a cold, refreshing drink on the café terrace with a mild breeze ruffling your hair; listen to the laughter and small talk from the guests at the neighbouring table. Without a doubt, an open-air café is much more than the sum of its parts. When the food, drinks, sunshine, people and the furniture all go well together, then life feels at its best. The furniture plays a particularly important part. It should be easy to move, stackable, have an attractive shape but not too bulky; it must be good to look at and

sit in and be able to cope with the wear in a public environment. Much of our furniture can provide all this and then some, and you can find a selection in the following pages. By selecting the right design, it's easy to boost your café's image and set your sights on a specific target group. Our product range now offers more possibilities than ever; we have chairs for every taste, and legs and tabletops that can be combined in many different ways..

ARRAS

A timeless model in cast aluminium. The range consists of a two-seater sofa, bench, armchair, dining chair and dining table in two sizes plus a small side table.

Balconies & small spaces Great prospects for small spaces

The summer also visits balconies and small patios. It's easy to turn them into inviting places in several different ways so you can kick back and enjoy that fresh, outdoor air. Even if the space is less than generous there are more ways than you realize to make

a cosy, inviting place for a relaxing breather. Our folding tables and chairs help you take advantage of the space in the best possible way and quickly adapt the furniture to add more people. And there's sure to be space enough for a little greenery, too.

Parasol

A great place in the shade

Sure, a place in the sun can be great, but you can get too much of a good thing. That's when a shady spot is preferable. Give your eyes a rest from bright sunlight and enjoy a well-earned break in the cool. Of course, there's nothing better than deciding when you want sunshine or shade and having the ability to switch.

One of our parasols will help you quickly create a

cool, shady oasis when that summer sunshine gets too intense. We have an extensive range of parasols. It includes everything from small, simple versions for the balcony to a humongous parasol measuring 4×4 metres. Because we want to help you match your outdoor furniture, you can choose between wood or aluminium stands and several different materials and colours.

REGGIO

3 m parasol in FSC certified wood (Sycamore) with varnished surface. Two-piece pole. Beautiful leather caps and weaving in 250g polyester. \emptyset 45 mm pole.

Cushions

Appealing to body and soul

And suddenly 1+1 make 3. This is precisely the relationship between our seats and our cushions. By themselves they are great, and together they are also the basis for really soft, glorious comfort. And our seat cushions not only provide great comfort, they also provide variation and let you add colour to your furnishings. Easiest is to choose the cushion model first and then the desired colour or pattern from our wide product range. We also have cushions with

different patterns front and back. Brafab's cushions are made from several materials including heavy Panama cotton. A number of cushions are made from Dralon, which guarantees excellent colour fastness and comfort. To avoid sun bleaching and increase cushion lifetime, it's a good idea to store them in our practical, elegant cushion boxes. There's enough room to store them, keep them dry and looking good without having to fold them until the next time you use them.

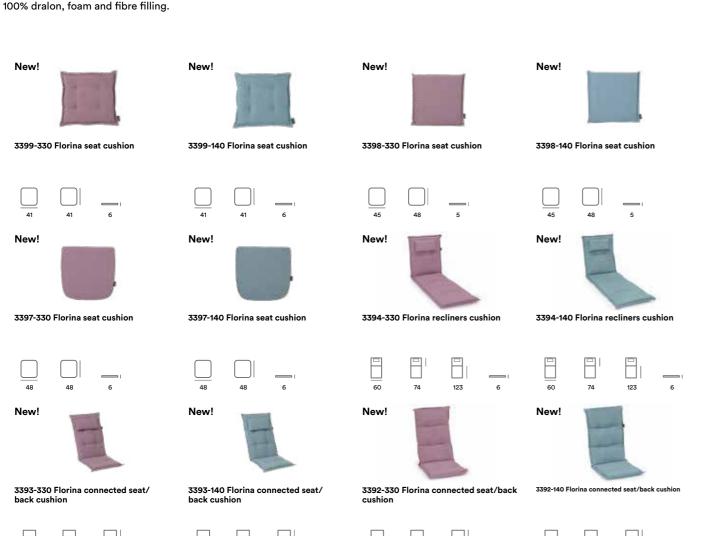

FLORINA

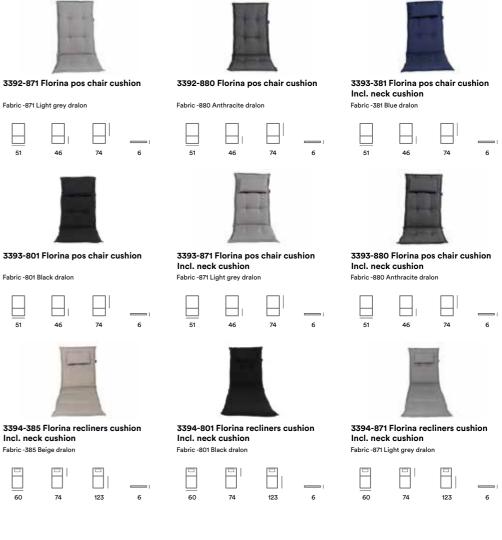

Florina is a whole range of cushions in seven colours that match the dining chair, the recliner, the garden chair, the hammock, etc. Now it's easy to match all your outdoor furniture! Fabric in 100% dralon, foam and fibre filling.

Accessories That little extra

By adding a little extra that brings warmth, brightens up or adds comfort, you will raise the cosiness factor and enjoy a more welcoming environment. Take our mats, for example. They look and feel like textile but are woven from 100% polypropylene, which means they are not affected by water or bright sunlight It also means they can stay outdoors the whole summer long without fading or moulding. Together with our selected furs, blankets, throw cushions, lights, lamps, pots and baskets, you have the opportunity to create a colour-fast setting that we know you'll enjoy for a long time.

NIMY

Decorative cushion of the highest quality for outdoor environments. The detachable, washable

olefin fabric is available in the three new colours: midnight blue, aqua cool, peony and sans.

New! 777-01 Nimy pillow

777-201 Nimy pillow

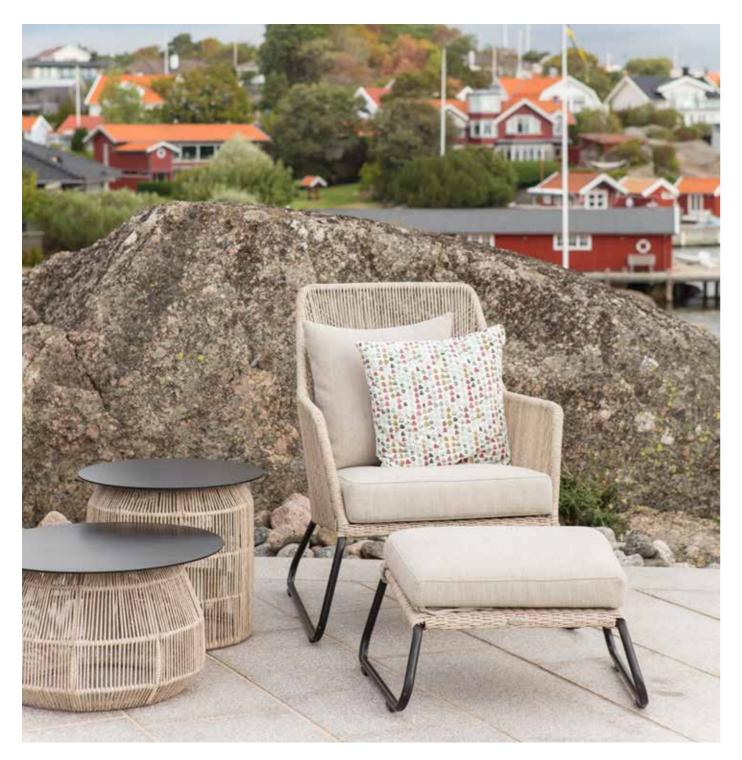

HANDZAME

Soft, high-quality rug in a wonderful mix of brushed wool for those cool summer evenings. Generous size and shades that match our range of cushions.

BERTRIX

Cushion with unique stone pattern inspired by nature and printed on thick cotton. The detachable and washable fabric comes in three different shades, coordinated with our single-colour Nimy cushions.

FLORENVILLE

A timeless floral pattern with colors that match our sofa groups. 100% cotton and filling of siliconized hollow fiber.

ORIA

A summer-inspired embroidered pattern, with black contours on a white background in 100% cotton.

PEGO

Decorative cushion in woven 100% wool in a warm shade of grey that goes well with our benches. Backside made of cotton. Provides increased seating comfort and feels especially good as summer evenings turn into night time.

PILAS

Pilas is a cushion consisting of a crocheted grey front in 100% wool and a back made of cotton.

NAMUR

Silky smooth lambskin in a warm beige, either for decoration or seating.

7533-2 Namur plaid

ARLON

Cushion of lambskin. The back of the cushion is made of polyester and the filling of siliconized hollow fiber.

7530-2 Arlon pillow

GISTER

Cushion with applications in gray and beige as for the thoughts of the Swedish mountain world. 100% cotton and filling of siliconized hollow fiber.

7531-2 Gister pillow

SALEMA

Round mats with discreet pattern in two different colour combinations. The mat is made in 100% polypropylene, a material that feels like textile but that does not become mouldy and is therefore ideal for outdoor use.

261

TONAR

A round mat that lends a special character to your outdoor area. Tonar has a decorative pattern in a shade of beige, and as it is available in diameters of both 120 and 200 cm, it is suitable for both small areas and more spacious outdoor environments. The mat is made in 100% polypropylene, a material that feels like textile but that does not become mouldy and is therefore ideal for outdoor use.

New! 7529-2 Tonar carpet 7528-2 Tonar carpet

TAVIRA

A neat little mat, suitable for balconies. The vibrant mosaic pattern goes really well with our white and black aluminium furniture. The mat is made in 100% polypropylene, a material that feels like textile but that does not become mouldy and is therefore ideal for outdoor use.

New!	
7532-1 Tavira carpet	S = 6 = 4
150 80	

ELVAS

Square rug with pattern inspired by nature in 100% polypropylene for outdoor use. The grey/ blue shades match our textiles and create a cosy feel.

A classic wide-striped mat in gray and white. The carpet is made of 100% polypropylene, a material that feels like textile but does not mold and can be used outdoors.

BEJA

7527-7 Baltar carpet

A tough carpet with a worn impression that fits well with the modern outdoor furniture. The carpet is made of 100% polypropylene, a material that feels like textile but does not mold and can be used outdoors.

EVORA

Modern "goose pattern" in 100% polypropylene, a material that feels like textiles but does not mold and can be used outdoors.

7525-2 Evora carpet

7525-7 Evora carpet

STONE

Stone - smooth weave carpet in 100% polypropylene, a plastic that feels like a textile. The carpet can withstand strong sunlight and the yarn is UV stable. It is completely unaffected by water and cannot go mouldy.

7520-7 Stone carpet

Weaving -7 Grey polypropylene

An easily placed carpet with a discrete woven pattern in beige or grey. 100% polypropylene that is not affected by water and that withstands strong sunlight. The right size for both dining suites and sofa groups.

Stylish lantern in Aluminium and glass.

New!

2220 Volos lantern

KEA

Stylish lanterns in teak and glass. Available in two sizes. The lanterns have a stainless steel handle and drainage at the bottom. All glass sections can be replaced easily. The Kea is sold individually.

Furniture protection & care products

Good condition all year round

Because it pays to take care of your garden furniture and look after it well, we've produced a wide range of furniture care and protection products suitable for all of our various types of furniture. We have fitted covers for individual pieces of furniture or large, shaped covers able to protect whole furniture groups. Their excellent fit keeps the furniture together and stays in place even when the wind is

howling. Many of our covers have clever hook-and-loop tape fasteners and most are made from durable polyester reinforced by waterproof PVC at vulnerable points. Depending on the type of material your furniture is made of, you will also need to wash and treat the surfaces periodically if you want to keep them looking good a long while. We have all the cleaners, treatments and good advice you will need along the way.

Care instructions

SYNTHETIC RATTAN, PLASTIC, TEXTILENE

Clean with a damp cloth and Brafab's plastic cleaner or a mild detergent. Do not use a high-pressure washer. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine.

LAMINATE

Clean with a damp cloth, dishwashing liquid or multipurpose cleaner. Preferably, wipe dry with a dry cloth. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine.

NON-WOOD

Clean with a damp cloth and mild washing-up liquid. Do not use a high-pressure washer. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine. Temperature changes may cause the material to "move" and bulge slightly. We recommend Brafab multisurface cleaner for cleaning and treatment.

ACACIA - HARDWOOD

Treat your furniture with Brafab oil and it will retain its beautiful finish. New furniture must be fully suffused with the oil by applying it several times one after the other until as much as possible has been absorbed. Wipe away any excess oil. The furniture should be treated with oil several times a year, especially in the spring before it's put out for the season.

PAINTED, GLAZED ACACIA

Clean with a soft cloth and mild washing-up liquid. Preferably, wipe dry. Protect the furniture from rain, ideally using a well ventilated furniture cover. Wipe the furniture dry if it gets wet in the rain. If the glaze gets scratched, lightly sand the surface with fine sandpaper to remove any dirt before re-glazing. Test a small area first to check that you have the right colour. Contact a hardware store for advice on the right product.

TEAK - Note! Not white-stained or greyed teak.

Heavily soiled teak must be cleaned using wood cleaner. Light soiling can be washed away with water and a mild washing-up liquid. Ideally, wet the teak shortly before cleaning to soften the surface a little. If the wood grain is raised after cleaning, lightly sand the surface using fine sandpaper. Allow the furniture to dry at least one day before finishing with wood protection or teak oil.

NATURAL BRUSHED TEAK

Our brushed teak is treated with wood impregnation and usually only needs cleaning with a mild washing-up liquid. The furniture can be treated with wood cleaner, wood protection and teak oil.

WHITE-STAINED TEAK

Clean with lukewarm water, mild washing up liquid or white-pigmented soft soap and a soft cloth. Allow the furniture to dry completely for at least 24 hours, preferably more. Finished using wood protection, which is completely colourless and prevents damp and dirt from getting into the wood.

NATURALLY GREYED TEAK

Clean with lukewarm water, mild washing up liquid and a soft cloth. Maintain the furniture using wood cleaner and wood protection.

PIN

When the surface becomes matte and water no longer beads on it, it's time to treat pine furniture. First thoroughly clean the furniture using Brafab wood cleaner or other wood cleaning agent. Allow it to dry for at least 24 hours before treating with Brafab oil. In the case of lacquered pine, refer to the care instructions for hardwood and acacia.

STAINLESS STEEL

Stainless steel is a very weather-resistant material. However, a specific form of surface corrosion or coating can occur in certain exposed environments. This can be removed using a cleaning agent for stainless steel. We recommend Brafab's Nano Spray, which both cleans and applies a protective film. This treatment should take place twice a year to keep the furniture looking good.

TIGHTEN THE SCREWS

Because wood is a living material, wood screws may need to be tightened periodically. It's good practice to tighten the screws before you stow the furniture away for the winter, and again when you get it out for the season.

WINTER STORAGE

When the season is over, the furniture will do best if you protect it from the wind and weather in a dry, cool, well-ventilated space. Make sure it's dry when you store it, and ideally use furniture covers. Make sure there is a free flow of air so that the furniture is ventilated.

FURNITURE COVERS

Our range of furniture protection contains covers for individual pieces of furniture and parasols, and covers for large groups.

HEAVY DUTY WOOD CLEANER

Removes difficult, intruded dirt and old oil. Biodegradable and harmless to the environment.

7690 Heavy Duty Wood Cleaner

WOOD CLEANER

Cleans and restores wood to its original condition.

7691 Wood Cleaner Maintenance

WOOD PROTECTOR

Extends the life of your wood by protecting it against moisture and water penetration. Wood Protector is water-based and built on green nanotechnology.

7693 Wood Protector Maintenance

TEAK OIL

Transparent, first class and water-repellent oil to extend the wood's durability. A unique blend of authentic Chinese tung oil with other vegetable oils give the oil an extremely high solids content, which makes it very long-lasting. Contains 500 ml.

7692 Teak Oil Maintenance

KINAOLJA

An excellent oil with deeply penetrating properties. The oil has very good water repellency and prevents cracking, bruising and mold. The solids content in the oil is 42% by volume.

7614 Kinesisk träolja Kinesisk träolja

7612 Kinesisk träolja Kinesisk träolja

TEXTILE CLEANER

Textile Cleaner removes stains from fabrics that will not wash in the machine, eg solid cushion covers.

7694 Textile Cleaner Maintenance

TEXTILE IMPREGNATION

Textile impregnation that provides an efficient water and dirt repellent protection.

7695 Textile Impregnation Maintenance

ODOR ELIMINATOR

Odor Eliminator effectively eliminates odors on most types of materials and has proven high efficacy on surfaces with extreme odors because of mold, fungus, etc. Odor Eliminator appears immediately and for a long time.

7696 Odor Eliminator Maintenance

NANOSPRAY

Nano Spray - a very useful spray that cleans and provides a protective layer in the same treatment. Spray on, wait and gently rub with Scotch Brite or rough cloth.

7675 Nanospray Nanospray

MULTI-SURFACE CLEANER

Cleaning for most hard surfaces such as steel, aluminum, plastic, textilene, wicker, etc

7697 Multi-Surface Cleaner Maintenance
