

OUTSTANDING
OUTDOOR SPACES

2020

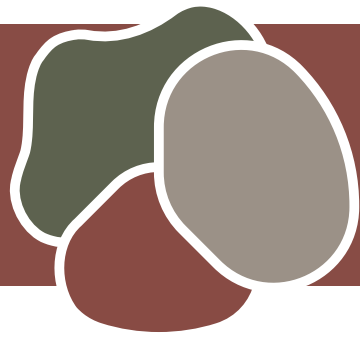

Brafab

In 2020, we will draw deeper inspiration from nature and colour and form will set the tone. Furnish your outdoor space with the same sense of ease and comfort as indoors. Make room for your personal style outdoors and make the most of every moment.

Outstanding
outdoor spaces
for outdoor lovers.

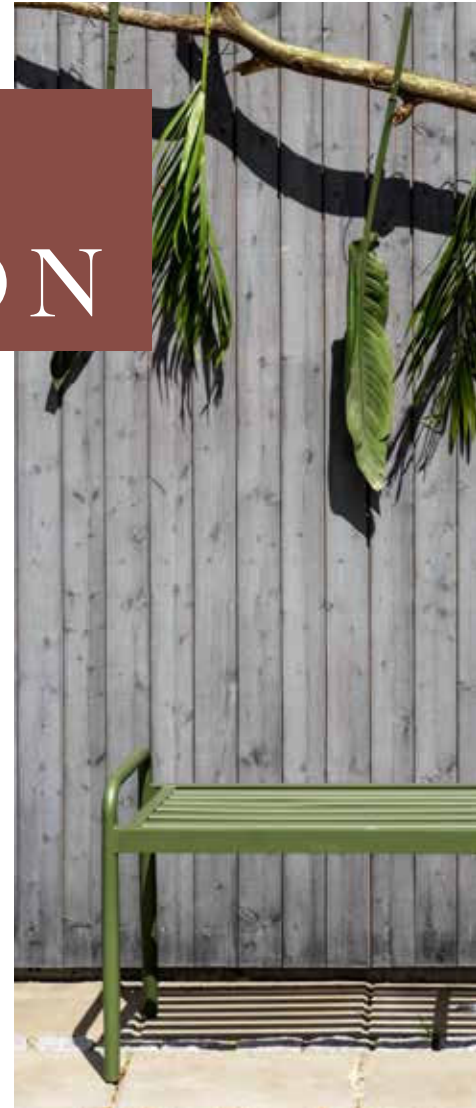

Crafted by Brafab in Sweden.

COLOUR COLLECTION

Combining different colours in a variety of shades and tones can do miracles for a home, room or terrace. The choice of colour can also make a big difference to our mood, and it's well known that different colours evoke a range of emotional responses. Blue, for instance, is associated with peace and quiet, brown tones create harmony and yellow symbolises energy and joy. We also give the different shades of colour wonderful names to describe them, like azure blue, lime green or sunshine yellow. These names all have one thing in common: to evoke an emotional reaction.

We're proud of this year's new colours. We think they're beautiful, and perfectly suit our fantastic outdoor furniture. Our new colour map is best described as subdued tones of green, red and beige, and we've given the new colours names like Burnt paprika, Moss green and Khaki in order to describe their shades. Burnt paprika features a burnt, slightly reddish-brown tone, Moss green is a dark green colour with a hint of yellow and Khaki is a wonderful fusion of grey and beige.

COLOURS 2020

COLOURS TO CAPTIVATE

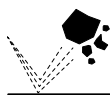

Our new colours dovetail beautifully with greys, browns, blacks or whites, which are traditionally the most common colours of Nordic outdoor furniture. And it's certainly no coincidence that this is the case, because these colours go really well with nature's own colour palette that appears in the seas, forests and flowery meadows. Nature was our main source of inspiration when we created these new tranquil and harmonious hues, which we hope will enhance the settings in your home, whether indoors or out.

We coordinate our range of products with accessories such as lanterns, mats and cushions in order to create the same cosy feeling on your terrace that you have indoors. Woolly plaids, soft mats and comfortable cushions in a range of materials and colour combinations will make your patio cosy and inviting, whichever base colour you choose.

So get inspired by this year's new colours and create the colour combinations that bring you the most joy.

Symbols - explanation

What's most important for you?
Look for the symbols in the catalogue.

Good reasons to
choose outdoor
furniture from
Brafab

01.

Customized for you

All of our furniture is carefully thought out and can be adapted to your needs. Take note of the seat height, back angle and choice of materials next time you look at our furniture. You'll notice how different it is from many other products on the market. What's more, it's equally resistant to the climate in Scandinavia as it is down south in the Mediterranean.

02.

Elegant solutions

All of our furniture is colour coordinated. This means you can furnish your entire patio with matching furniture. We also have specially tailored furniture covers and maintenance products ideally suited to your particular selection.

03.

Avant-garde designs

Want to be a trendsetter? Then you should take a look at our product range. As the market leader, we set trends and drive the industry forward. We make sure you don't buy a product you risk getting bored with after just one season.

04.

Sturdy frames

Almost all of our frames are made of aluminium – a material with many advantages compared to e.g. steel, both when it comes to corrosion protection and allowing light, easy-to-move furniture. There's a big difference in the strength of a product with a stout frame compared to a thin one.

05.

Stronger synthetic rattan

A lot of the synthetic rattan products available today contain a high percentage of recycled plastic, which is both weaker and has lower UV resistance. We seek to use the stronger "virgin" synthetic rattan in all of our furniture.

06.

Fabric

All of our fabrics have consistently high UV resistance and withstand the sun's rays well. They're also made from materials that are durable and easy to clean.

07.

Long life

Durability is important to us! Because we want your favourite furniture to last a long time, we're meticulous in our choice of materials. Should anything wear out, we keep a large stock of spare parts and coverings.

Aluminium

The summer is there to be enjoyed

The summer is a wonderful season, but it can be a little unpredictable. We're all familiar with the quick changes in weather, from inviting clear-blue skies to the sprinkle of the summer rain. Then seconds later, the sun appears again and the ground steams up where those small drops of rain fade into the memory. With such abrupt changes in mind, we want to help you make the best of those sunny moments. Our maintenance-free aluminium furniture means you're soon ready to take out the cushions and

enjoy the patio whenever the sun shows up. So it's no wonder our aluminium furniture remains so popular year after year. Because it's practically maintenance free, easy to move around and comfortable to sit in, we like to present new designs in aluminium every season. It's important to us that our furniture always fulfils form and function, so we sit in it and tweak it innumerable times before it enters production. Care and convenience as part of the bargain.

DELIA

A modern collection consisting of stackable chairs and buildable parts for creating sofas in several different variations as well as a flexible sofa bed (where the divan part can easily be moved from right to left). Each piece has a modern aesthetic, with stylishly designed details on the legs and frames as well as excellent seating comfort.

All weather cushions

Not a cloud on the horizon with Weldon All Weather Cushions. Worried about leaving your precious cushions out in the rain? Don't be! Weldon's unique All Weather Cushion dries fast and is resistant to fungus. Now you may enjoy every single day out in the open, regardless of moody weather changes. Your cushions will be fine! By putting the cushions in an upright position between times of usage, they will absorb less water and dry even faster. We recommend supplementing with a figure sewn furniture protection. It will keep the cushions clean and make them resist the sun longer.

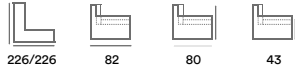

WELDON

Weldon is a series in appealing design and matte finish. The structural parts have all-weather pillows - perfect for Nordic climate. Weldon fits well with our Leone series.

STETTLER

Stettler is an extremely spacious lounge sofa in aluminium. This substantial lounge group offers width and depth that ensure you can relax in great comfort sitting together. Besides a 2-seat end-piece and a comfortable corner section, the Stettler series includes a large coffee table and an extra large rectangular foot stool that can also be used as a divan. Comes in black-lacquered aluminium and grey olefin fabric.

GONESSE

Gonesse is a modern, modular lounge group comprising only three parts: a back section with a corner solution and two identical free-standing two-seater sections. The backrest has an open design. Gonesse can be used as a traditional corner group with the two loose armrest cushions as end-pieces or neck rest. The set can also be converted into a sun lounger for two. Accompanying side table and shelf are optional. The side table has a smart solution for storing glasses and is flexible, as you can use it as an extra coffee table or pull it over the sofa. The shelf is easily attached to the back and includes the same smart solution as the side table for setting down glasses. Design Hugo de Ruiter.

VILLAC

Villac is a modern, modular lounge group that can be assembled to form several elegant combinations. Villac's best feature is its great versatility. Choose an easy chair with or without armrests, or let the modules form a sofa – straight or angled. You can easily vary a few sections to create your very own combination. Villac is the result of a careful design that enables flexible, practical use. The ability to tailor your own seating group makes it easy to place in any setting. There are also coffee tables in two different sizes for Villac. The tables can be used singly as a large coffee table and side-table, or together as a nest.

VENCE

Design and comfort in a harmonious combination where unbroken, clean lines in a meticulous design meet stylish comfort with features that are easy on the eyes. Vence is beautiful from every direction, and its harmonious proportions allow it to take centre position in any room. A soft, embracing sofa with tailored back cushions for excellent comfort. The series consists of four sections, a three-seat and two-seat sofa to help you easily create the perfect seating group. The Vannes and Taverny tables make excellent accessories.

WHISTLER

Whistler is a stylish, modular range with a special combination of matte varnished aluminium and teak, making it different from other aluminium ranges. What is also special is that the two seat sections have a smaller side table with teak slats. The side table can also be used as an extra seat. There is also a table for Whistler, measuring 90x 90cm, with teak slats and a corner piece.

OLIVET

Olivet is a complete series inspired by the 1960s. Matte-lacquered in white with features in high quality teak, it provides excellent comfort thanks to its curved ridges and contoured olefin cushions. The series includes sofas, armchairs and coffee tables, all with a magazine rack. Complete with a dining set with a round or rectangular table and the Olivet dining chair, which is stackable and has an accompanying grey cushion.

SUNNY

Sunny is our self-developed position chair in aluminium. Slick and carefully designed, it has exclusive Textilene in the backrest and seat. With cast aluminium in the fittings and mechanics, this piece exudes quality. Sunny is available in a range of colour combinations, and as an extra feature, the neck crosspiece is arched to provide additional comfort. The colour schemes were devised to match many of our tables, such as Rodez and Lyon.

HILLMOND

Time to gather together family and friends for a fantastic party? Then the Hillmond extendible table is the perfect choice. Choose between our longest table, with room for at least 12 people, or the shorter version, which accommodates 8–10. The underframe is in lacquered aluminium and the top can be either transverse aluminium ribs with an embossed wooden pattern or one of our wood-patterned laminate tops.

Synthetic rattan

Natural-looking wickerwork for all weathers

There's no mistaking the trend that we're increasingly devoted to our homes. We love the feeling of coming home, and our households are more and more important to us. As many of us seek to create a comfortable, welcoming home environment outdoors as well as inside, it's no surprise that synthetic rattan furniture is growing ever more popular. Thanks to its design and natural-looking range of colours, this furniture effortlessly transforms your patio into a comfortable, inviting oasis during those wonderful spring and summer months. Just like that made from authentic rattan, our synthetic rattan furniture demands a level of skill and craftsmanship

in which several years' experience is a minimum requirement. It is woven by hand around a sturdy, weather-resistant frame, and to get the exact effect you're looking for you can choose between varied wickerwork, different strand thicknesses and wide range of colours and patterns on durable fabrics. Our synthetic rattan furniture is resistant to all weathers because we made sure to produce it using durable material of the very highest quality. So check out our wide range of armchairs, tables, sofa groups and lounges and create your very own oasis. Set your imagination free, as we provide everything you need.

COVELO

The airy, wickerwork design is made of durable, coarse artificial rattan with a very natural appearance. Excellent seating comfort and high arms create an extra snug feeling.

SOHO

Soho is a series which is perfect for living spaces both large and small. With a wide range of modules and colour combinations, you can easily create the formula which best meets your needs. The modern aesthetic, with aluminium frames woven with synthetic rattan, is characteristic of a series which offers a selection of tables, chairs and armchairs. Stylish cushions, with a high-density foam filling and covered by olefin fabric for excellent light fastness, are included.

NINJA

Ninja, one of our series that have infinite combinations, is available in natural, grey, black and beige. The series contains everything you need to construct a comfortable seating group or a dining set to suit your own style. The dining tables are available in different sizes and designs which together with comfortable chairs give an opportunity to create an inviting dining area. The Ninja side table provide you with practical storage, and a couple of sets of pots filled with plants will bring nature closer. Take a seat in the Ninja lounge and relax.

KENTON

A tasteful combination of synthetic rattan and teak, ideal for any patio. The rattan is sparsely woven, giving the dining chairs a sleek appearance. Comes with a seat cushion and flexible backrest cushion. The three-seat sofa has two thicker seat and backrest cushions. All cushions are in grey olefin fabric. The dining chair combines ideally with many of our teak dining tables, and the sofa with our teak coffee tables.

Rattan

Summer furniture that can be used all year round

We believe summer is far too special to be limited to June, July and August. So if you have a conservatory, we make furniture in authentic rattan so you can delight in that special summer feeling all year round. As you probably already know, constructing rattan furniture is pure handicraft. The long wicker strands are woven around a coarser rattan frame, resulting in living, natural furniture that gives your conservatory – or why not your living room – a snug, warm feel. The open weave gives the furniture a light, airy expression that suits many different rooms and

furnishing styles. Naturally, our beautiful rattan furniture is in its element alongside other natural materials, and looks great in combination with our teak tables. And bear in mind that natural rattan furniture is sensitive to damp, and most at home when taking pride of place in your conservatory. There's really only one golden rule to remember when it comes to furnishing: let your imagination run free and dare to combine different materials, colours and shapes that culminate in a style that reflects your personality. Then you'll truly feel at home.

SONORA

A retro-inspired series in authentic, hand-woven rattan. Cognac-brown rattan in soft, clean lines and generous, beige coloured cushions combine in a classic, elegant design. Comes as a sofa and armchair with matching coffee table, and can also be combined with one of our teak tables. Relax and enjoy life in this spacious reclining chair. Ideal in conservatories.

KUBOR

This is a series of authentic rattan tables lacquered in a range of colours, making it easy for you to choose the one that goes best with your home. The lacquer accentuates the vibrant, stunning appearance of the rattan, and the windings are made in contrasting colours to add a touch of elegance. Choose between the dining table and/or side table, both of which come with glass tabletop.

Teak

Close to nature

You can never really tell with summer. Sometimes it's top of the bill from April to September, other times there's just a cameo appearance now and then. But one thing's for sure, a meal always tastes better alfresco. So when the summer shows its best side it's time to get ready for a barbecue or a relaxing coffee break with friends and family, and savour every moment. And who knows, you could even be gathered around a beautiful teak furniture set.

Teak is a fantastic material. Furniture made from teak can remain outdoors year after year and is so strong that even with the slenderest of measurements it can carry heavy loads. For the wood to retain these excellent qualities, it must be hand-

led properly right from the start. Once the trees reach the right age for felling, they are sawn into planks and dried to the precise moisture content. Not before then do they reach our furniture manufacturing. Because teak is hard, it demands extremely high precision processing, so we use machining to achieve the best results. And it goes without saying we comply with the stringent EU Timber Regulation, diligently checking the origin of the material. We care greatly about the wild population, which is why we only use cultivated teak from plantations. When buying teak furniture from us, you can always be confident you've made the right choice.

FIGALIA

A timeless, portable outdoor kitchen in beautiful teak with a generously sized terrazzo worktop, stainless steel sink and tap, all supported on large wheels. A practical storage space is concealed behind the elegant, ribbed sliding doors, and the handles on the gables double as hangers for grilling tools and the like.

Hardwood

Hard surface for soft shapes

There's probably nothing that gives rise to such great expectations as the approaching summer. Dreams of an unbroken stretch of sunny days at the beach followed by warm barbecue evenings and that party spirit after a moment of quiet philosophical reflection. No matter where you are, that summer feeling is never better than when you're sitting comfortably relaxed in your acacia outdoor furniture. Acacia furniture is a popular furnishing choice in many people's conservatories, and our

range of hardwoods not only include antique finishes but also beautifully oiled, natural acacia. Acacia is a tough, durable so-called hardwood that is ideal for making furniture. However, keep in mind that because this furniture is sensitive to damp, it must be maintained regularly if left in the open air. When purchasing hardwood, we always comply with the stringent provisions of the EU Timber Regulation. And that's a promise.

CHAPLIN

Chaplin – sun lounger in painted acacia. The matching Chaplin side table 50×50 cm and Chaplin cushion are available. Stainless steel fittings and screws.

Acacia -51 White oil brushed

WOODFORD

Woodford – a series of stylish and practical patio accessories. The stands are made of distressed acacia, with fibre concrete shelves and trays. The shelves on v-shaped stands are fixed with screws. The shelves and trays on the others are loose, so they are easy and convenient to lift out and move.

Pine

A Nordic classic for all weathers

Pine furniture has always enjoyed a special place in our Nordic hearts. Maybe it's our seemingly endless, enchanted pine woodland, or maybe it's the beautiful pine furniture that brings childhood memories to life for so many of us. Whatever the reason, beautiful pine furniture is a really popular choice, and pine

performs well in competition with other types of wood year after year. And we couldn't be happier, because we know that carefully selected pine treated to withstand wind and weather is not only a beautiful wood, but ideally suited to making furniture. So add a touch of Nordic beauty to your home.

HOLMA

A practical outdoor kitchen in black-lacquered pine with visible decorative knotting. The durable materials are carefully selected, from the laminate worktops to the galvanised steel screws and fittings. Industrial aesthetics meet slick features in a harmonious combination. Generous workspace spanning 104 × 55 cm.

Plastic

A summer filled with lazy days

Sunny summer days are generous. They go on giving from dawn to dusk, unselfishly sharing their warmth and asking for nothing in return. Our plastic furniture is a great place to enjoy such summer days. And because it's as close to maintenance-free as you can get, you can relax and enjoy care-free days by the sea or pool without a care in the world. This ideal material is not only completely maintenance free but also light, which makes furniture easy to move around. The material's mouldability has led to a wide product range that spans everything from simple,

traditional camping sets to elegant, exclusive designer furniture. Apart from seating comfort, the difference between good and bad plastic furniture is the quality of the plastic itself. Take our Italian supplier Nardi, for example, which produces sturdy furniture using the highest quality plastic (you can also check out Nardi in the Café section). You may not believe it, but the fact is that the colours, despite many years exposed to sunlight, have retained the same character and strength they had at the time of purchase. Impressive, we're sure you'll agree.

MISTRAL

A comfortable, stackable chair in a timeless, attractive design. The chairs are made of a highly durable, easily-cared-for material perfectly suited to the home or public spaces alike. The fibreglass-reinforced technopolymer structure is the secret formula.

Café & Restaurant

Set for success

Imagine a cold, refreshing drink on the café terrace with a mild breeze ruffling your hair; listen to the laughter and small talk from the guests at the neighbouring table. Without a doubt, an open-air café is much more than the sum of its parts. When the food, drinks, sunshine, people and the furniture all go well together, then life feels at its best. The furniture plays a particularly important part. It should be easy to move, stackable, have an attractive shape but not too bulky; it must be good to look at and

sit in and be able to cope with the wear in a public environment. Much of our furniture can provide all this and then some, and you can find a selection in the following pages. By selecting the right design, it's easy to boost your café's image and set your sights on a specific target group. Our product range now offers more possibilities than ever; we have chairs for every taste, and legs and tabletops that can be combined in many different ways..

OLIVET

Olivet is a complete series inspired by the 1960s. Matte-lacquered in white with features in high quality teak, it provides excellent comfort thanks to its curved ridges and contoured olefin cushions. The series includes sofas, armchairs and coffee tables, all with a magazine rack. Complete with a dining set with a round or rectangular table and the Olivet dining chair, which is stackable and has an accompanying grey cushion.

CHIOS

A table with top made of transverse teak ribs and a stacking chair with matching seat and back make the Chios an attractive dining set that fits in almost anywhere. Despite its slim dimensions, it can be left outside year after year and requires minimal maintenance. The Chios family also includes a matching small two-seater sofa, deckchair and sofa group in the same elegant teak design. The chair has stainless steel fittings.

56:AN

A classic chair that exudes timeless design. The first model was made back in 1956, and with its eye-catching design, featuring stylish teak ribs that contrast with a hot-dip galvanised steel frame, it's as contemporary today as it was then. The table is foldable, and the chairs stackable for practical storage.

Balconies & small spaces

Great views for small spaces

Balconies and small patios are the perfect places in which to savour the summer. With a touch of imagination and a drop of ingenuity you can create a wonderful oasis where you and your friends have plenty of room; despite the lack of square metres. Because even if space is in short supply, you can still

sit back and relax in the open air. Our folding tables and chairs help you take advantage of the space in the best possible way and quickly adapt the furniture to add more people. And for a little extra comfort, we recommend making some room for your delightful green oasis to add the finishing touch.

VERO

Vero is a small, fold-away table with a removable, reversible top. This means you not only get a classic tray table, but also a smooth tabletop in a single piece of furniture. Simply fold away the table stand and take the tray table with you. If you want that perfect café feel, turn the tray over for a smooth tabletop.

Tents & Marquees

Extra space for those outdoor moments

The summer is a season for impromptu barbecue gatherings with friends and family, big summer parties in the never-ending light and balmy summer nights. So perhaps the weather may not always turn out the way you want, but you don't have to cancel your party just because it's raining. Don't

worry! Our party tents and exclusive marquees will help protect you against wind, weather and those irritating evening midges and create a pleasant setting for your party – whatever the weather seems to have in store.

PIODE

Piode is a beautiful, elegant pergola that creates a fabulous outdoor space in your garden and provides excellent shelter from wind and poor weather. White or anthracite-grey aluminium frame with light grey polyester walls with zip fasteners.

Parasols

A great place in the shade

Sure, a place in the sun can be great, but you can get too much of a good thing. That's when a shady spot is preferable. Give your eyes a rest from bright sunlight and enjoy a well-earned break in the cool. Of course, there's nothing better than deciding when you want sunshine or shade, and having the ability to choose as you wish. One of our parasols will help you quickly create a cool, shady oasis when that summer

sunshine gets too intense. We have an extensive range of parasols. It includes everything from small, simple versions for the balcony to a humongous parasol measuring 4 x 4 metres. We've also ensured you have a range of materials and colours to choose from when buying a base. Because we understand it's important that your base is a perfect match for your outdoor furniture.

CAMBRE

Cushions

Appealing to body and soul

Suddenly one plus one can become three, and this is the exact relationship between our seats and cushions. They're great on their own but even better together, laying the foundation for soft, unparalleled seating comfort. Our cushions will not only enhance your seating satisfaction by ensuring you're sitting really comfortably, they also provide endless possibilities for variation by adding wonderful splashes of colour to your furniture. The best approach is

to choose the cushion model first, followed by your preferred colour or pattern from our wide range of products. So take plenty of time to browse our selection of cushions, because there's a lot to choose from. To avoid sun bleaching and increase cushion lifespan, it's a good idea to store them in our practical, elegant cushion boxes. There's enough room to store them, and keep them dry and looking good without having to fold them until the next time you use them.

MATERIALS

Dralon: Dralon is an acrylic fabric coated with Teflon, giving it a classic, durable quality. It is highly suited to outdoor settings thanks to its excellent light fastness and weather-resistant qualities. Dralon is made by weaving together dyed fibres using a special technique, producing a highly durable fabric. Dralon cushions are comfortable to sit on and easy to keep clean.

Olefin: Along with Dralon, olefin is considered to be the best fabric for cushions to be used outdoors. Olefin is colour-resistant, dirt-repellent, durable, tough and comfortable to sit on.

Polyester: The polyester we use for our outdoor cushions is known as structured polyester. This has a more marked structure which makes it comfortable to sit on and easy to keep clean. Polyester has good light fastness and is highly durable.

Cotton/polyester: To produce cushions with printed patterns we use a combination of cotton and polyester in the fabric. A completely natural material that provides a soft, comfortable feeling, cotton is combined with polyester to produce fabric which is better suited to outdoor settings.

FLORINA

Adding a splash of colour to your balcony or terrace has never been easier. Florina features a whole series of cushions in a range of shades to help you add just the colour you want to your dining chair, reclining chair, position chair or hammock. All cushions are made of 100% Dralon, with a foam and fibre filling.

Accessories

That little extra

By adding a little extra that brings warmth, brightens up or adds comfort, you will raise the cosiness factor and enjoy a more welcoming environment. Take our mats, for example. They look and feel like textile but are woven from 100% polypropylene, which means they are not affected by water or bright sunlight

It also means they can stay outdoors the whole summer long without fading or moulding. Together with our selected furs, blankets, throw cushions, lights, lamps, pots and baskets, you have the opportunity to create a colour-fast setting that we know you'll enjoy for a long time.

SIMETO

Summery print with embroidered, solid-colour back. Available in a pink/grey and blue/aqua.
100% cotton. Cushion included.

Soft, high-quality rug in a wonderful mix of brushed wool for those cool summer evenings. Generous size and shades that match our range of cushions.

7535-11 Handzame plaid

7535-3 Handzame plaid

7535-7 Handzame plaid

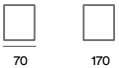

TRONTO

Cotton plaid in glorious summer colours.

New!

7461-1 Tronto plaid

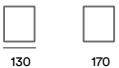

FORTORE

A soft, supple, specially woven blanket in 100 per cent cotton with different patterns on each side.

New!

7460-7 Fortore plaid
Patterned

Decorate with carpets outdoors as well

All our carpets are made entirely of synthetic material (100% polypropylene) and can withstand water while being UV-resistant. They can be easily vacuumed, brushed or shaken. Stains are removed with a sponge, some water and mild detergent. They have certificates for OEKO-TEX Standard 100 and comply with REACH standards.

BEJA

A tough carpet with a rustic, worn impression, the perfect match for modern outdoor furniture. The carpet is made of synthetic polypropylene, a material that feels like textile but does not mould, and can be used both indoors and out.

7523-7 Beja carpet

7522-7 Beja carpet

EVORA

Modern goose-eye pattern in 100% polypropylene, a material that feels like textile but does not mould, and can be used outdoors. Because the mat is resistant to water as well as UV light, it can be placed both indoors and out without problem.

7525-7 Evora carpet

7524-7 Evora carpet

Weaving -7 Grey polypropylene

7524-2 Evora carpet

Weaving -2 Beige polypropylene

TONAR

A round mat gives your patio a special character. Tonar has a decorative pattern in a beige tone, and as it comes in diameters of 120 and 200 cm, it's ideal for small spaces as well as more spacious outdoor settings. The mat is made of 100% polypropylene, a material that is reminiscent of textile, but does not mould and is therefore ideal for outdoor use.

7528-2 Tonar carpet

Ø120

ELVAS

With a pattern inspired by nature, this square mat is made of polypropylene, making it the perfect choice if you want to have a mat outdoors. Its grey-blue tones match our fabrics, creating a cosy feel. Because the mat is resistant to water as well as UV light, it can be placed both indoors and out without problem.

AVERIO

Averio is a tough, hard-wearing synthetic material rug made of polypropylene. The heavy-duty weave, which is similar to natural sisal, is made using a technique reminiscent of rope making. Because Averio is resistant to water and UV light, it can be used both indoors and out without problem.

TAVIRA

A small, neat mat which is just perfect for small spaces. The striking mosaic pattern combines ideally with our aluminium furniture in white and black. The mat is made of 100% polypropylene, a material that feels like textile but does not mould, and is therefore ideal for outdoor use.

7532-1 Tavira carpet

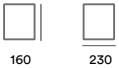

BALTAR

A classic wide-striped mat in synthetic polypropylene. Easily mistaken for textile, this material does not mould and can be used both indoors and out.

7527-7 Baltar carpet

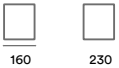

STONE

Smooth weave carpet made of 100% polypropylene, a plastic extremely similar to textile. Because the mat is resistant to water as well as UV light, it can be placed both indoors and out without problem.

7520-7 Stone carpet

Weaving -7 Grey polypropylene

SALEMA

Round mats with discrete patterns in two different colour schemes. The mat is made of 100% polypropylene, a material that feels like textile but does not mould, and is therefore ideal for outdoor use.

Covers & Care products

Good condition all year round

Because it pays to take care of your garden furniture and look after it well, to make things easy for you we've produced a wide range of furniture care and protection products suitable for all of our various types of furniture. We have fitted covers for individual pieces of furniture or large, shaped covers able to protect entire furniture groups. Their excellent fit keeps the furniture together and stays in place even when the wind is howling.

Many of our covers have clever hook-and-loop Velcro fasteners and most are made from durable polyester reinforced by waterproof PVC at vulnerable points. Depending on the type of material your furniture is made of, you'll also need to wash and treat the surfaces regularly if you want to keep them looking good for a long time. So our advice is to give your furniture a little love and attention, and it'll return the favour by looking beautiful year after year.

FURNITURE COVERS

Our range of furniture protection contains covers for individual pieces of furniture and parasols, and covers for large groups.

HEAVY DUTY WOOD CLEANER

Removes difficult, intruded dirt and old oil. Biodegradable and harmless to the environment.

7690 Heavy Duty Wood Cleaner Maintenance

350 ml

WOOD CLEANER

Cleans and restores wood to its original condition.

7691 Wood Cleaner Maintenance

500 ml

WOOD PROTECTOR

Extends the life of your wood by protecting it against moisture and water penetration. Wood Protector is water-based and built on green nanotechnology.

7693 Wood Protector Maintenance

500 ml

TEAK OIL

High quality, transparent, water-resistant oil which extends the lifespan of wood. A unique blend of authentic Chinese tung oil and other vegetable oils gives the oil an extremely high solids content, which makes it very long-lasting.

7692 Teak Oil Maintenance

500 ml

KINAOLJA

An excellent oil with deeply penetrating properties. The oil has very good water repellency and prevents cracking, bruising and mold. The solids content in the oil is 42% by volume.

7614 Chinese wood oil

1000 ml

7612 Chinese wood oil

2500 ml

TEXTILE CLEANER

Textile Cleaner removes stains from fabrics that will not wash in the machine, eg solid cushion covers.

7694 Textile Cleaner Maintenance

500 ml

TEXTILE IMPREGNATION

Textile impregnation that provides an efficient water and dirt repellent protection.

7695 Textile Impregnation Maintenance

ODOR ELIMINATOR

Odor Eliminator effectively eliminates odours on most types of materials and has proven high efficacy on surfaces with extreme odours caused by mould, fungus, etc. Odor Eliminator works immediately and has a long-lasting effect.

7696 Odor Eliminator Maintenance

NANOSPRAY

An effective spray that cleans and forms a protective film at the same time. Spray on, wait and then gently rub using a Scotch-Brite pad or rough cloth.

7675 Nanospray

MULTI-SURFACE CLEANER

Cleaning for most hard surfaces such as steel, aluminum, plastic, textilene, wicker, etc

7697 Multi-Surface Cleaner Maintenance

Care instructions

SYNTHETIC RATTAN, PLASTIC, TEXTILENE

Clean with a damp cloth and Brafab's plastic cleaner or a mild detergent. Do not use a high-pressure washer. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine.

LAMINATE

Clean with a damp cloth, dishwashing liquid or multipurpose cleaner. Preferably, wipe dry with a dry cloth. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine.

NON-WOOD

Clean with a damp cloth and mild washing-up liquid. Do not use a high-pressure washer. Never place hot objects directly on the material. Always use a coaster for glasses and glass objects as these can get extremely hot in bright sunshine. Temperature changes may cause the material to "move" and bulge slightly. We recommend Brafab multisurface cleaner for cleaning and treatment.

ACACIA – HARDWOOD

Treat your furniture with Brafab oil and it will retain its beautiful finish. New furniture must be fully suffused with the oil by applying it several times one after the other until as much as possible has been absorbed. Wipe away any excess oil. The furniture should be treated with oil several times a year, especially in the spring before it's put out for the season.

PAINTED, GLAZED ACACIA

Clean with a soft cloth and mild washing-up liquid. Preferably, wipe dry. Protect the furniture from rain, ideally using a well ventilated furniture cover. Wipe the furniture dry if it gets wet in the rain. If the glaze gets scratched, lightly sand the surface with fine sandpaper to remove any dirt before re-glazing. Test a small area first to check that you have the right colour. Contact a hardware store for advice on the right product.

TEAK – Note! Not white-stained or greyed teak.

Heavily soiled teak must be cleaned using wood cleaner. Light soiling can be washed away with water and a mild washing-up liquid. Ideally, wet the teak shortly before cleaning to soften the surface a little. If the wood grain is raised after cleaning, lightly sand the surface using fine sandpaper. Allow the furniture to dry at least one day before finishing with wood protection or teak oil.

NATURAL BRUSHED TEAK

Our brushed teak is treated with wood impregnation and usually only needs cleaning with a mild washing-up liquid. The furniture can be treated with wood cleaner, wood protection and teak oil.

WHITE-STAINED TEAK

Clean with lukewarm water, mild washing up liquid or white-pigmented soft soap and a soft cloth. Allow the furniture to dry completely for at least 24 hours, preferably more. Finished using wood protection, which is completely colourless and prevents damp and dirt from getting into the wood.

NATURALLY GREYED TEAK

Clean with lukewarm water, mild washing up liquid and a soft cloth. Maintain the furniture using wood cleaner and wood protection.

PINE

When the surface becomes matte and water no longer beads on it, it's time to treat pine furniture. First thoroughly clean the furniture using Brafab wood cleaner or other wood cleaning agent. Allow it to dry for at least 24 hours before treating with Brafab oil. In the case of lacquered pine, refer to the care instructions for hardwood and acacia.

STAINLESS STEEL

Stainless steel is a very weather-resistant material. However, a specific form of surface corrosion or coating can occur in certain exposed environments. This can be removed using a cleaning agent for stainless steel. We recommend Brafab's Nano Spray, which both cleans and applies a protective film. This treatment should take place twice a year to keep the furniture looking good.

TIGHTEN THE SCREWS

Because wood is a living material, wood screws may need to be tightened periodically. It's good practice to tighten the screws before you stow the furniture away for the winter, and again when you get it out for the season.

WINTER STORAGE

When the season is over, the furniture will do best if you protect it from the wind and weather in a dry, cool, well-ventilated space. Make sure it's dry when you store it, and ideally use furniture covers. Make sure there is a free flow of air so that the furniture is ventilated.
